## Leírás

Barrier open/closed, free accessing, forbidden mode are selectable.

Bidirectional (entering/exiting) lane

LED indicates the entrance/exit and passing status.

Fire alarm passing: when the fire alarm is triggered, the barrier will be dropped automatically for emergency evacuation.

Valid passing duration settings: system will cancel the passing permission if a person does not pass through the lane within the valid passing duration.

Easy integration of any third-party software management system via ISAPI protocol.

With key buttons to configure turnstile's functions and parameters offline.
